

## Rock Recipes

### Treasure Stones:

- 1 cup used coffee grounds
- ½ cup sand
- 1 cup flour
- ¼ cup salt
- Water (about ¾ cup)
- Treasure – shell, marble, another rock, any material that can withstand heat

Combine all ingredients to dense consistency. Insert the treasure and cover completely with the rock material. Put on a parchment paper covered baking sheet. Bake at 200° for 15 minutes. Once cooled – your children can explore the rock and find their hidden treasure!

### Sandstone:

- Small paper cup
- Cementing solution (2 parts water to 1 part Epson salt)
- Sand

Fill the cup up ¼ way with sand. Combine the water and Epson salt. Add cementing mixture to the sand until the sand is saturated. Place the cup in a warm place until the sand dries completely. Tear the paper cup away.
